TO ALL INSURANCE COMPANIES TRANSACTING ACCIDENT
AND HEALTH INSURANCE IN PUERTO RICO

Recently, it has been called to our attention the fact of the importance of the possibility that Accident and Health Insurance contracts offer the coverage for Chronic Renal Disease including renal dialysis treatments and kidney transplantation.

We would like to receive from you suggestions that will help us, specially in determining how the coverage may be offered and the cost to be charged to the insured.

We will appreciate your cooperation with this petition at the earliest possible moment.

Cordially yours,

Manuel Juarbe Quiñones
Commissioner of Insurance
