PROPERTY AND CASUALTY PRODUCTS CHECKLISTS

Dear Sirs or Madams:

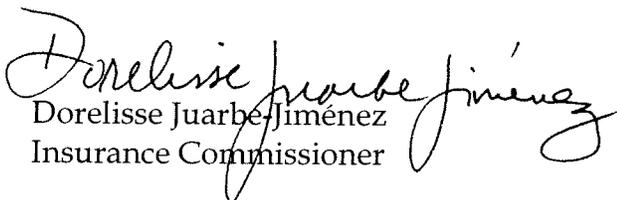

In order to facilitate the process of analyzing property and casualty products submitted for consideration to the Actuarial Analysis Unit of the Office of the Insurance Commissioner, we have prepared some check lists that include the requirements to be observed in the filing of the most frequently submitted property and casualty products.

Files for these products that are submitted to this Office which do not comply with the requirements set forth in these checklists will not be considered for evaluation and will be returned to the insurer.

The checklists are subject to changes or updates as required by law, or ruling and circular letters issued by this Office.

These checklists are readily available on our Web page at www.ocs.gobierno.pr.

Cordially yours,

Dorelisse Juarbe Jiménez
Insurance Commissioner
