NOTES TO FINANCIAL STATEMENTS

(1) Organization and Summary of Significant Accounting Policies

(a) Organization

PMC Medicare Choice, LLC. (the Company or PMC) was organized under the laws of the Commonwealth of Puerto Rico on December 28, 2000 and is a wholly owned subsidiary of MMM Holdings, LLC. (Holdings or Parent Company), a corporation organized under the laws of the Commonwealth of Puerto Rico. Until December 12, 2012, Holdings was wholly owned by Aveta Inc., a Delaware corporation (Aveta). On December 12, 2012, immediately prior to the merger of Aveta into a subsidiary of Collaborative Care Holdings, LLC (the Merger): (1) Holdings became a wholly owned subsidiary of a newly created subsidiary of Aveta, InnovaCare, Inc., a Puerto Rico corporation (InnovaCare), and (2) InnovaCare was distributed to Aveta's stockholders, including holders of Aveta equity options and 2007 Plan awards.

Prior to the Merger, Aveta entered into a Separation Agreement by and among Aveta and Holdings providing for the separation of Aveta's U.S.-based Medicare and commercial-delegated businesses (NAMM), all of which following the Merger are held by Aveta, from its Puerto Rico-based, Medicare managed care operations, all of which following the Merger are held by the InnovaCare. In addition, Holdings and Aveta each assumed all of the liabilities relating to the assets so held by it subsequent to the Merger, and indemnified the other party against any claims relating to such assets. (The Separation Agreement also provided for the distribution of the InnovaCare to Aveta's stockholders as described above.)

The Company was organized to develop and provide Medicare Advantage Plan (MA Plan) coverage to residents of Puerto Rico who are eligible for Medicare benefits. The MA Plan offered by the Company provides plan members with full Medicare Part A and Plan B benefits plus coverage of Medicare deductibles and copayment amounts and additional benefits that traditional fee-for-service Medicare does not provide. Since January 2006, the MA Plan has also offered Medicare Part D drug coverage (MA-PD plan). The MA Plan operates as a health services organization (HSO) whereby members are covered for care provided by physicians, hospitals, and other healthcare providers.

The Company offers its Medicare Advantage Plan pursuant to a contract with the United States Centers for Medicare and Medicaid Services (CMS), a federal agency within the U.S. Department of Health and Human Services. Under the terms of this contract, CMS pays the Company a fixed amount which is subject to future adjustment for each member of the Company's coordinated care plan, and the Company provides the coverage to that member for the health services provided. The contract is for a period of one year commencing January 1 and ending on December 31, and can be renewed for periods of one year, as defined in the contract. The contract was renewed effective January 1, 2014 for a period of one year. The Company also provides supplemental health coverage to Medicare and Medicaid dual eligible members enrolled in a specified MA-PD plan.

(b) Basis of Presentation

The accompanying statutory financial statements of the Company have been prepared in accordance with accounting practices prescribed or permitted by the Commissioner of Insurance of the Commonwealth of Puerto Rico (the Commissioner of Insurance), which is a

NOTES TO FINANCIAL STATEMENTS

comprehensive basis of accounting other than U.S. generally accepted accounting principles. The Company adopted the National Association of Insurance Commissioners' statutory accounting practices (NAIC SAP), as the basis of its statutory accounting practices, as long as they do not contradict the provisions of the Insurance Code of the Commonwealth of Puerto Rico (the Insurance Code) or the Circular Letters issued by the Commissioner of Insurance.

The Commissioner of Insurance has the right to permit other specific practices that may deviate from prescribed practices. Prescribed statutory accounting practices (SAP) include a variety of publications of the National Association of Insurance Commissioners (NAIC) including its codification initiative contained in its *Accounting Practices and Procedures Manual*, as well as state laws, regulations, and general administrative rules. Permitted statutory accounting practices encompass all accounting practices not so prescribed. The Commissioner of Insurance has adopted certain permitted accounting practices that differ from those found in NAIC SAP. However, differences adopted by the Commissioner of Insurance do not have a significant effect on the net income and statutory capital and surplus of the Company.

The Company with the explicit permission of the Commissioner of Insurance of the Commonwealth of Puerto Rico, recognized the following deferred tax charge as admitted assets in the December 31, 2014 and 2013 in the accompanying statutory statement of admitted assets, liabilities and capital and surplus.

	2014	2013
Statutory surplus as reported	\$ 27,715,214	34,158,741
Permitted deferred taxes:		
Deferred tax charge	—	(202,858)
Statutory surplus – NAIC SAP	\$ 27,715,214	33,955,883

The use of this permitted practice did not had an impact on compliance with RBC requirements as the Company would have been in a Company Action Level RBC, as defined in the Insurance Code, for the years ended 2014 and 2013.

(c) *Nonadmitted Assets*

Certain assets designated as nonadmitted assets have been excluded from the statutory statements of admitted assets, liabilities, and capital and surplus by a charge to unassigned surplus.

NOTES TO FINANCIAL STATEMENTS

The nonadmitted assets charged to unassigned surplus during 2014 and 2013 are as follows:

	2014	2013
Receivables and advance to providers	\$ 670,541	1,087,575
Prepaid expenses	5,370	5,370
	\$ 675,911	1,092,945

(d) Use of Estimates

The preparation of the statutory financial statements requires management of the Company to make estimates and assumptions relating to the reported amounts included in the statutory financial statements and accompanying notes. The most significant items subject to estimates and assumptions are the actuarial determination for liabilities related to medical costs, the Company's estimated risk adjustment payments receivable from CMS, and certain amounts recorded related to the Part D program. Actual results could differ from these estimates.

(e) Recognition of Premium Revenue

Premium revenue is recognized as revenue over the period in which service or benefits are obligated to be provided. The Company recognizes premium revenue for the Part D payments received from CMS for which it assumes risk. The Company does not record revenue related to Part D payments from CMS that represent payments for claims for which it assumes no risk (note 4).

Every year, CMS adjusts the premium base paid to MAPD plans for risk factor considerations. These adjustments are related to the severity of the clinical condition of each member and are calculated by CMS using, for the most part, claims data from the prior year. Final risk factor adjustments for the year are paid on a lump-sum basis to account for the proper risk factor retroactively to the beginning of the year. Changes in revenues from CMS resulting from the periodic changes in risk adjustment scores for the Company's membership are recognized when the amounts become determinable, and the collectability is reasonably assured. Such estimates are regularly reviewed and updated and any resulting adjustments are included in the current period's results.

Substantially, all revenues recognized by the Company are received from CMS and from the Commonwealth of Puerto Rico Health Insurance Administration (ASES by its Spanish acronym). Revenues are recognized ratably over the period of coverage based on anticipated CMS and ASES reimbursement rates, number of enrollees, and expected Medicare and Medicaid eligibility. Actual amounts received from CMS and ASES are subject to adjustment based on subsequent review of members' eligibility or retroactive adjustments of reimbursement rates. An estimate is made of such retroactive adjustments based on historical trends, premiums billed, number of members, expected eligibility, and other information. Retroactive membership adjustments result from enrollment changes not yet processed, or not yet reported by CMS.

Expenses incurred in connection with the acquisition of business, such as sales and brokers' commissions, are charged to operations as incurred.

NOTES TO FINANCIAL STATEMENTS

(f) *Cash, Cash Equivalents, and Short-Term Investments*

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents (none at December 31, 2014 and 2013). Short-term investments are defined as short-term highly liquid investments with remaining maturities of one year or less (excluding those investments classified as cash equivalents). Short-term investments having an original maturity of less than one year are stated at cost. At December 31, 2014 and 2013, cash and short-term investments consisted of cash deposited in financial institutions and money market funds amounting to approximately \$8,709,873 and \$10,890,693, respectively, of which approximately \$4,515,000 and \$41,000, respectively, represent short-term investments.

(g) *Investment Securities*

Bonds and other debt securities, and equity securities are valued in accordance with rules promulgated by NAIC. Bonds and other debt securities eligible for amortization under such rules and nonredeemable preferred stocks are stated at amortized cost. Equity securities are carried at estimated fair value. Adjustments reflecting the unrealized appreciation or depreciation of equity securities are shown as a component of surplus, net of tax and are not included in the determination of the net gain from operations.

Realized gains or losses on the sale of investments are included in operations and are derived using the specific-identification method for determining the cost of securities sold. Interest and dividend income is recognized when earned.

The Company applies the provisions of Statement of Statutory Accounting Principles (SSAP) No. 43, *Loan-Backed and Structured Securities* (SSAP No. 43R), which requires insurers to separate other-than-temporary impairments between interest and noninterest-related declines in the value of all loan-backed and structured securities.

A decline in the fair value of any security below cost that is deemed to be other-than-temporary impairment (OTTI) results in a reduction in carrying amount to fair value. The impairment is charged to operations and a new cost basis for the security is established. To determine whether an impairment is other-than temporary, the Company considers all available information relevant to the recoverability of the security, including past events, current conditions, and reasonable and supportable forecasts when developing estimate of cash flows expected to be collected. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, changes in value subsequent to year-end, and forecasted performance of the investee.

Premiums and discounts on bonds and other debt securities are amortized or accreted over the life of the related security as an adjustment to yield using the effective-interest method. Such amortization and accretion is included in the investment income line item in the accompanying statutory statements of revenue and expenses.

The Company's investments are exposed to three primary sources of risk: credit, interest rate, and liquidity risk. The financial statement risks, stemming from such investment risks, are those associated with the determination of estimated fair values, the diminished ability to sell certain investments in times of strained market conditions, the recognition of impairments

NOTES TO FINANCIAL STATEMENTS

and the recognition of income on certain investments. These financial statement risks may have a material effect on the amounts presented within the statutory financial statements.

(h) *Fair Value Measurements*

The Company follows the guidance in the provisions of SAP No. 100, *Fair Value Measurements* (SAP 100), for fair value measurements of financial assets and financial liabilities that are recognized or disclosed at fair value in the statutory financial statements on a recurring basis. SAP 100 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and also establishes a framework for measuring fair value and expands disclosures about fair value measurements.

SSAP No. 100 was revised with an effective date of January 1, 2012 to include the gross presentation of purchases, sales, issuances, and settlements in the Level 3 fair value measurement rollforward.

The revisions also include a disclosure in the statutory financial statements of aggregate fair value and level in the fair value hierarchy for all financial instruments when they are reported or measured at fair value or their fair value is otherwise disclosed.

The carrying amounts of cash and cash equivalents, short-term investments, receivables, accounts payable, and accrued liabilities approximate fair value because of the short-term nature of these instruments and should be collected or paid within 12 months after year-end.

The Company utilizes valuation techniques that maximized the use of observable inputs and minimizes the use unobservable inputs. Additional information on the fair value of investments is included in note 5.

(i) *Medical Claim Liabilities and Medical Costs and Claims*

Medical claim liabilities are accrued as services are rendered, including claims in process and other medical liabilities and an estimate for claims incurred but not yet reported (IBNR). The IBNR is determined based upon an actuarial analysis of the Company's historical claim payment patterns, management estimates, and other statistics. In addition, the Company contracts with various service providers, which are compensated based on a capitation basis. Expenses related to these providers, which are based in part on estimates, are recorded in the period in which the related services are rendered.

The medical claim liabilities are necessarily based on estimates and, while management believes that the amounts are adequate, the ultimate liability may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in the statutory statements of revenue and expenses of the current period. Other medical claims liabilities include medical costs disputes based upon an analysis of potential outcomes, assuming a combination of litigation and settlement strategies. The actual results could differ materially from the amount recorded in the statutory financial statements of the Company.

NOTES TO FINANCIAL STATEMENTS

Medical costs and claims consist of claim payments, capitation payments, risk-sharing payments, compensation to doctors and pharmacy costs, net of rebates, as well as estimates of future payments of claims provided for services rendered prior to the end of the reporting period. Capitation payments represent monthly contractual fees disbursed to physicians and other providers who are responsible for providing medical care to members. Risk-sharing payments represent amounts paid under risk-sharing arrangements with providers, including independent physician associations. Pharmacy costs represent payments for members' prescription drug benefits, net of rebates from drug manufacturers. Rebates are recognized when the rebates are earned according to the contractual arrangements with the respective vendors.

Premiums the Company pays to reinsurer are reported as an off-set to premiums, and related reinsurance recoveries are reported as reductions from medical expenses.

(j) *Income Taxes*

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Under SAP, the amount permitted to be recognized is more restrictive and, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in the accompanying statutory statements of changes in capital and surplus in the period that includes the enactment date.

Gross deferred tax assets generally are admitted to the extent the Company's income taxes paid in prior years that can be recovered through loss carrybacks; plus the lesser of (a) the amount of gross deferred tax assets expected to be realized within one year after year-end, or (b) 10% of statutory capital and surplus as of year-end; plus any remaining deferred tax assets that can be offset against existing gross deferred tax liabilities. Companies subject to Risk-Based Capital (RBC) can elect to admit a higher amount of deferred taxes (a) the amount of gross deferred tax assets expected to be realized within three years after year-end, or (b) 15% of statutory capital and surplus as of year-end.

The Company reviews its deferred tax assets for recoverability and establishes a statutory valuation allowance based on historical taxable income, projected future taxable income, applicable tax strategies, and the expected timing of the reversals of existing temporary differences. A valuation allowance is provided when it is more likely than not that some portion or all of the deferred tax assets will not be realized.

The Company is subject to Puerto Rico income taxes as another-than-life insurance entity. Other-than-life insurance entities are taxed essentially the same as other corporations with taxable income determined on the prescribed statutory accounting practices. Also, operations are subject to an alternative minimum income tax, which is calculated based on a formula established by the existing tax laws. Any alternative minimum income tax paid may be used as a credit against the excess, if any, of regular income tax over the alternative minimum income tax in future years.

NOTES TO FINANCIAL STATEMENTS

Tax credits purchased are initially recorded at cost. Gains on tax credits are deferred until the value of the tax credits utilized exceeds its cost. Losses on tax credits are recognized when known. Gains and losses on tax credits are reflected in other income in the accompanying statutory statements of revenue and expenses.

Deferred tax charges are amortized to income tax expense in proportion to the realization of the tax benefits that gave rise to the deferred tax charge.

The Company accounts for uncertainty in income taxes by prescribing a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The Company recognizes interest and penalties relating to uncertain tax positions in income tax expense.

(2) Accounting for Prescription Drugs under Medicare Part D

Medicare prescription drug coverage is available to eligible members with Medicare. As a result, the Company renewed their contracts with CMS to offer MA-PD insurance coverage for medical and prescription drug benefits. The contract was renewed effective January 1, 2013 and 2014 for a one year period.

In general, pharmacy benefits under Part D plans may vary in terms of coverage levels and out-of-pocket costs for beneficiary premiums, deductibles, and coinsurance. However, all Part D plans must offer either “standard coverage” or its actuarial equivalent (with the Company’s out-of-pocket threshold and deductible amounts that do not exceed those of standard coverage). These “defined standard” benefits represent the minimum level of benefits mandated by Congress.

The payment the Company receives monthly from CMS generally represents the Company’s bid amount for providing insurance coverage. The Company recognizes premium revenue for providing this insurance coverage ratably over the term of the annual contract. However, the CMS payment is subject to 1) risk sharing through the risk corridor provisions and 2) reinsurance subsidy in order for the Company and CMS to share the risk associated with financing the ultimate costs of the Part D benefit and (3) CMS coverage gap discount program (CGDP) subsidy.

The amount of revenue payable to a plan by CMS is subject to adjustment, positive or negative, based upon the application of risk corridors that compare a plan’s revenues targeted in their bids (target amount) to actual prescription drug costs. Variances exceeding certain thresholds may result in CMS making additional payments to the Company (risk sharing receivable) or require the Company to refund to CMS (risk sharing payable) a portion of the payments the Company received. Actual prescription drug costs subject to risk sharing with CMS are limited to the costs that are, or would have been, incurred under the CMS “defined standard” benefit plan (allowable risk corridor costs). The Company recognizes any changes in the risk sharing receivable from or payable to CMS as an adjustment to premium revenue.

Reinsurance subsidies represent payments from CMS for claims the Company paid for which the Company assumed no risk. Claims paid above the out-of-pocket or catastrophic threshold for which the Company is not at risk are all reimbursed by CMS through the reinsurance subsidy for Part D plans offering the standard coverage. The Company accounts for these subsidies, net of withdrawals, as an asset or liability for amounts held under uninsured plans in the statutory statements of admitted assets, liabilities, and capital and surplus and as a financing activity in the

NOTES TO FINANCIAL STATEMENTS

statutory statements of cash flows. The Company does not recognize premium revenue or claims expense for these CMS subsidies.

Part D sponsors are required to provide the discounts for applicable drugs in the Medicare Part D coverage gap (difference between the initial coverage limit and the catastrophic coverage threshold) at point-of-sale under the CGDP. Part D sponsors receive monthly prospective payments from CMS under the CGDP. These prospective payments provide cash flows to Part D sponsors for advancing the gap discounts at the point of sale. The Company accounts for these prospective payments or subsidies as a liability in the statutory statements of admitted assets, liabilities and capital and surplus and as a financing activity in the statutory statements of cash flows. On a quarterly basis, CMS invoices drug manufacturers for discounts provided by Part D sponsors which are recorded as an account receivable from manufacturers (approximately \$3,194,000 and \$2,293,000 at December 31, 2014 and 2013 respectively) as part of other receivables in the accompanying statutory statements of admitted assets, liabilities and capital and surplus. Manufacturers remit payments for invoiced amounts directly to Part D sponsors. The prospective payments made to Part D sponsors are reduced by the discount amounts invoiced to manufacturers. The Company does not recognize premium revenue or claims expense for these CMS prospective payments or invoiced amounts to manufacturers.

These estimates of amounts due to or from CMS are primarily determined on the prescription drug benefit claim data submitted by plans to CMS in the form of Prescription Drug Event (PDE) data records. The Company used PDE submission reports and data, claims paid data, and actuarial assumptions pursuant to CMS risk sharing and reinsurance guidelines in order to estimate the final settlement amounts due to or from CMS.

The Company recorded at December 31, 2014 and 2013 a risk sharing payable of approximately \$1,300,000 and \$600,000, respectively, which is reported as aggregate health policy reserves; and a reinsurance receivable of approximately \$4,584,000 and \$3,063,000, respectively reported as amounts receivable related to uninsured plans at December 31, 2014 and 2013 in the accompanying statutory statements of admitted assets, liabilities, and capital and surplus. The Company has a CGDP liability at December 31, 2014 and 2013 amounting to approximately \$2,730,000 and \$2,630,000, respectively, reported as an offset to amounts receivable related to uninsured plans in the accompanying statutory statements of admitted assets, liabilities, and capital and surplus.

The Part D amounts due to or from CMS are necessarily based on estimates and, while management believes that the amounts are adequate, the ultimate balance may be in excess or less than the amount provided. The methodology for making such estimates and for establishing the resulting Part D balances are continually reviewed, and adjustments, if any, are reflected in the current year. The final Part D amounts due to or from CMS are determined within one year after the contract year-end. The Company recorded changes in estimates for Part D amounts due to or from CMS that decreased income before taxes in the amounts of approximately and \$250,000 for the year ended December 31, 2013. The Company did not record any changes in estimates for Part D amounts from CMS for the year ended December 31, 2014.

The Company also receives premiums to enhance the drug benefit coverage to Medicaid-eligible members under the Medicare Platino Program sponsored by ASES. At December 31, 2014 and 2013, the Company has receivables from ASES of approximately \$69,000 and \$272,000, respectively, which are reflected as a component of premium receivables in the accompanying statutory statements of admitted assets, liabilities and capital and surplus.

NOTES TO FINANCIAL STATEMENTS

Pharmacy benefit costs are recognized as incurred. The Company has subcontracted the pharmacy claims administration to a third-party pharmacy benefit manager.

The Company regularly monitors and evaluates the difference between the cost and estimated fair value of investments. For investments with a fair value below cost, the process includes evaluating the length of time and the extent to which cost exceeds fair value, the prospects and financial condition of the issuer, and the Company's intent and ability to retain the investment to allow for recovery in fair value, among other factors. This process is not exact and further requires consideration of risks such as credit and interest rate risks. Consequently, if an investment's cost exceeds its fair value solely due to changes in interest rates, impairment may not be appropriate. If after monitoring and analyzing, the Company determines that a decline in the estimated fair value of any fixed income or equity security below cost is other than temporary, the carrying amount of the security is reduced to its fair value. The impairment is charged to operations and a new cost basis for the security is established.

The Company has assessed each position for credit and interest risk. The unrealized losses on investment securities as of December 31, 2014 and 2013 were caused principally by interest rate

NOTES TO FINANCIAL STATEMENTS

changes. The contractual terms of these investments do not permit the issuer to settle the securities at a price less than the amortized cost of the investment. Because the Company has the ability and intent to hold these securities until a market price recovery or maturity, these investments are not considered other-than-temporarily impaired. In the case of the U.S. Treasury securities and corporate bonds, management of the Company examined the guidance in SSAP No. 26, *Bonds, Excluding Loan-Backed and Structured Securities*, and concluded that the Company has the ability and intent to hold its investment in securities until a market price recovery or maturity. For the mortgage-backed securities, asset-backed securities and collateralized mortgage obligations, management evaluated SSAP No. 43R and concluded that the Company does not intend to sell such security, and it is more likely than not that it will not be required to sell such security prior to the recovery of its amortized cost basis.

The amortized cost and estimated fair value of debt securities at December 31, 2014 by contractual maturity are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Fair Value Measurement

The Company follows SAP No. 100, *Fair Value Measurements* (SAP 100) for fair value measurements of financial assets and financial liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. SAP 100 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

NOTES TO FINANCIAL STATEMENTS

The following tables present assets and liabilities that are measured at fair value on a recurring basis at December 31, 2014 and 2013:

For the years ended December 31, 2014 and 2013, net realized gains of approximately \$30,000 and \$83,000, respectively, are included as component of investment income.

NOTES TO FINANCIAL STATEMENTS

(5) Transactions with Related Parties

Holdings provides certain management, infrastructure support, consulting, and implementation services in the operations of the Company and other subsidiaries of Holdings. For these services, which Holdings charges a management fee based on 120% of Holdings monthly operating expenses, Holdings charged the Company approximately \$34,155,000 and \$34,750,000 during the years ended December 31, 2014 and 2013, respectively. On August 1, 2009, the Company entered into a delegation agreement with MSO of Puerto Rico, Inc. (MSO), an affiliate, to provide management and administrative services with respect to the network of physicians and other healthcare providers contracted by the Company in exchange for a management fee. The delegation agreement terms include a fixed and variable component. The fixed component is determined based on a fixed percentage (4%) of the total premiums earned by the Company. The variable component is the 25% of the Surplus as contractually defined in the delegation agreements. During 2014 and 2013, MSO charged the Company approximately \$14,185,000 and \$19,611,000, respectively, of which \$13,558,000 and \$16,100,000, respectively, was for the fixed component which is included in general and administrative expenses and \$600,000 and \$3,512,000, respectively, was for the variable component, which is included in medical costs and claims, respectively, in the accompanying statutory statements of revenue and expenses.

The amounts due to and due from parent company and affiliates at December 31, 2014 and 2013 are noninterest-bearing.

(6) Medical Claim Liabilities

The activity in the medical claim liabilities during the years ended December 31, 2014 and 2013 are as follows:

	<u>2014</u>	<u>2013</u>
Medical claim liabilities at beginning of year	\$ 38,101,635	39,603,042
Medical costs and claims:		
Current period insured events	282,003,000	336,352,000
Prior periods insured events	(5,801,000)	(3,762,000)
Total incurred	<u>276,202,000</u>	<u>332,590,000</u>
Payment for claims:

Prior periods insured events	28,838,370	31,977,300
Total paid	<u>282,565,760</u>	<u>334,091,407</u>
Medical claim liabilities at end of year	<u>\$ 31,737,875</u>	<u>38,101,635</u>

The above table shows the components of changes in medical claim liabilities for the periods indicated. Medical claim liabilities includes claims in process and other medical claims liabilities as well as provisions for the estimate of incurred but not reported claims and provisions for disputed claims obligations. Such estimates are developed using actuarial principles and assumptions that consider among other things, contractual requirements, historical utilization trends and payment patterns, benefit changes, medical inflation, seasonality, membership, and other relevant factors.

NOTES TO FINANCIAL STATEMENTS

Because medical claim liabilities includes various actuarially developed estimates, the Company's actual medical costs and claims expense may be more or less than the Company's previously developed estimates.

The incurred claims for prior period insured events during 2014 and 2013 were lower due to a favorable development of claims liabilities that is attributed to lower-than-expected cost per service and utilization trends.

(7) Income Taxes

The income tax expense differs from the amount computed by applying the Puerto Rico statutory income tax rate of 39% in 2014 and 2013 to the income before income taxes as a result of the following:

	2014	2013
Computed "expected" tax expense	\$ (2,041,064)	3,126,596
Increase (reduction) in income benefit resulting from:		
Exempt interest income	(16,050)	(2,730)
Intangibles and deferred tax charge amortization		
tax rate differential	(324,574)	(1,298,900)

Change in deferred income taxes	(2,421,831)	178,890
Total statutory income tax expense	\$ (2,238,811)	1,995,745

On June 30, 2013, the Governor of Puerto Rico signed into law Act No. 40, Tax Burden Redistribution and Adjustment Act. This law amended several articles of the Puerto Rico Internal Revenue Code signed on January 1, 2011 as discussed in the following paragraph. The most significant change to the Company is the amendment to section 1022.02 retaining the twenty percent (20%) regular income tax rate but, establishing higher surtax rates. Under the new law, the maximum combined rate will be 39% effective as of January 1, 2013.

On July 1, 2014 the Company's subsidiaries converted into Limited Liabilities Companies ("LLC") and immediately thereafter, elected to be treated as partnerships for Puerto Rico tax purposes following a tax free reorganization pursuant to the provisions of sections 1034.04(b)(6) and 1072.01 of the Puerto Rico tax code.

NOTES TO FINANCIAL STATEMENTS

Deferred income taxes reflect the tax effects of temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and income tax purposes. The deferred tax asset at December 31, 2014 and 2013 of the Company is composed of the following:

	<u>2014</u>	<u>2013</u>	<u>Change</u>
Deferred tax assets:			
Ordinary:			
Advances to providers	\$ 74,635	239,486	(164,851)
Reserve Contingency	2,491,501		2,491,501
Net Operating losses	92,974	—	92,974
Premiums receivable	186,876	184,669	2,207
Other (including items <5% of total ordinary tax assets)	2,094	2,094	—
Total deferred tax assets	<u>2,848,080</u>	<u>426,249</u>	<u>2,421,831</u>
Nonadmitted	<u>—</u>	<u>—</u>	<u>—</u>
Admitted ordinary deferred tax assets	<u>\$ 2,848,080</u>	<u>426,249</u>	<u>2,421,831</u>

Under SAP, gross deferred tax assets generally are admitted to the extent the Company's income taxes paid in prior years that can be recovered through loss carrybacks; plus the amounts determined by applying the *Realization Threshold Limitation Table – RBC Reporting Entities (RBC Reporting Entity)*; plus any remaining deferred tax assets that can be offset against existing gross deferred tax liabilities. Additionally, gross deferred tax assets are reduced by a statutory valuation allowance adjustment, based on the weight of available evidence; it is more likely than not that some portion or all the gross deferred tax assets will not realized. For the year ended December 31, 2014 and 2013 no statutory valuation allowance adjustments were required.

The change in deferred income taxes during 2014 and 2013 amounted to \$2,421,831 and \$178,890, respectively, and was an increase and decrease, respectively to unassigned surplus.

In 2012, the Company entered into a transaction with Holdings where the Company distributed to Holdings, at an estimated fair value of approximately \$13,524,000 certain intangibles associated with the 2006 acquisition of the Company. Immediately after, MMM Holdings transferred the same intangibles to the Company at the same estimated fair value of \$13,524,000. PMC paid approximately \$2,029,000 to the Puerto Rico Treasury Department on the resulting taxable gain which was recorded as a deferred tax charge in the accompanying statutory statements of admitted assets, liabilities, and capital and surplus. Beginning January 1, 2012, the deferred tax charge and the intangibles new tax basis will be amortized over a three year period ending 2014. The amortization of the deferred tax charge of approximately \$203,000 and \$811,000 for 2014 and 2013, respectively, is included as part of the current income tax expense partially offsetting the tax benefit associated with the increased tax amortization. Amortization of the intangibles, for tax purposes only, for the year ended December 31, 2014 and 2013 was approximately \$1,352,000 and \$5,410,000, respectively. The deferred tax charge net of amortization was approximately \$203,000 as of December 31, 2013.

NOTES TO FINANCIAL STATEMENTS

The Company files its income tax return with a statute of limitation. In the normal course of the business, the Company is subject to examination by various taxing authorities. As of December 31, 2014, the Company may be subject to income tax examinations for the fiscal tax years ended 2009 through 2014.

Unrecognized tax benefits result from income tax positions taken or expected to be taken on the Company's income tax returns for which a tax benefit has not been recorded in the Company's statutory financial statements. For the years ended December 31, 2014 and 2013, there were no unrecognized tax benefits.

(8) Significant Risks and Uncertainties Including Business and Credit Concentration

Medicare Advantage Payments

Medicare Advantage payment benchmarks have been cut over the last several years, including 2014, with additional funding reductions to be phased-in through 2017. Further, in April, 2014, CMS released its final notice of 2015 Medicare Advantage benchmark rates and payment policies. The final notice included significant reductions to 2015 Medicare Advantage standardized payment benchmarks, which have been roughly offset by upward adjustments related to risk scores and coverage for cost increases from a new Medicare FFS Uncompensated Care Policy. The expected net effect of the 2015 payment benchmark reductions and offsetting adjustments is that actual 2015 payment rates will be flat to slightly positive prior to the impact of the health insurance premium tax. However, the Company's 2015 actual results remain subject to deviations in, risk scores, demographic mix and other company-specific variables relative to our current best estimates.

Additionally, the Budget Control Act of 2011, as amended by the American Taxpayer Relief Act of 2012, triggered automatic across-the-board budget cuts (known as sequestration), including a 2% reduction in Medicare Advantage and Medicare Part D payments beginning April 1, 2013. The impact of sequestration cuts to our Medicare Advantage revenues continues to be partially mitigated by reductions in provider reimbursements for those care providers with rates indexed to Medicare Advantage revenues or Medicare fee-for-service reimbursement rates, as well as for those that receive shares of a surplus pool. Due to the commencement of a full year of sequestration reductions in 2014, the continuation of these reductions will not generate a year over year reduction in revenue in 2015.

In addition, beginning in 2014, Medicare Advantage plans were required to have a minimum medical loss ratio ("MLR") of 85% and will be required to remit to CMS any amount below that percentage. CMS has issued final guidance as to how this requirement will be calculated for Medicare Advantage plans. Based on our results of MLR for the full year of 2014, in the opinion of management, the minimum MLR standard will not have any material impact on the Company's financial position or results of operations.

Our 2014 Medicare Advantage rates reflect a 3% CMS quality bonus, as provided by the CMS Quality Demonstration program implemented by CMS from 2012 – 2014 for a quality rating of 3.0 stars. This expanded star ratings bonus program expired after 2014. In 2015, quality bonus payments will be paid only to four and five star plans, compared to current bonuses that are available to qualifying plans rated three stars or higher. Our star rating for 2015 is 3.0, for which we will receive no bonus payment and which places our plans at the lowest of three possible "rebate" levels. Rebate levels are used to determine the amount of additional benefits a plan is able to offer its members beyond those covered under the traditional fee-for-service Medicare program. However, 2015 contract year star ratings were recently announced and we have received a 3.5 star rating for that year. This will increase the amount of rebates available to us to fund additional benefits to our members in 2015, by raising our rebate percentage to 65%, up from 50% in 2014, but our star rating remains below the level required for a CMS quality bonus.

Legal Matters

Jose R. Valdez v. Aveta Inc., MMM Healthcare, Inc., PMC Medicare Choice, Inc., MSO of Puerto Rico, Inc. and MMM Holdings, Inc. In May 2011, Jose R. Valdez, a former employee of the Company filed a qui tam lawsuit alleging, among other things, that Company had improperly submitted risk condition documentation to CMS in connection with its Medicare Advantage businesses. The action brought by Valdez was filed under seal and was the subject of a 30-month investigation by the Department of Justice. In February 2014, the DOJ advised the Court that it was declining to join in the case and as a result the complaint was unsealed and subsequently served by Valdez on the Company. In February 2015, the Court ruled in favor of the Company's motion seeking to move venue of the case to Puerto Rico. While the Federal District Court assigned to the case has not set a schedule for consideration of the current pre-trial motions, and the Company has not yet responded to the complaint, it categorically denies the allegations and in the opinion of management, the ultimate outcome of this matter is not expected to have a material financial impact on the Company.

MMM v. Cardio Services, Inc., Diagnostic Nuclear Medicine, Inc., Dr. Orlando Marini and Dr. Ricardo Santiago. In 2009, the Company and one of its affiliates terminated the provider agreements of Dr. Orlando Marini and his affiliated cardiology provider entities (the "Marini Entities") after an internal clinical review indicated the Marini Entities had submitted materially false billing documentation. Following that termination, the Company commenced an action in the First Instance Court of the Commonwealth of Puerto Rico to recover provider reimbursements related to such billings. The Marini Entities have denied all wrongdoing and have asserted counterclaims against the Company related to the terminations, including claims for lost profits and reputational damage. The case is in the early stages and the parties are currently engaged in discovery. Although the Company believes they have valid claims and valid defenses to the Marini Entities counterclaims, there can be no assurance that the Company will prevail against the Marini Entities. Notwithstanding the foregoing, in the event of an adverse ruling against the Company such a determination is not expected to have a material financial impact on the Company.

Miscellaneous. At December 31, 2014 and 2013, the Company is a defendant in various other lawsuits and other claims arising in the ordinary course of business. In addition, current and past business practices of the Company are subject to review or investigation by, or subpoenas or other requests for information from, various state, commonwealth or federal healthcare regulatory authorities, state or commonwealth attorneys general, the U.S. Department of Justice, U.S. Attorneys, the Office of the Inspector General, and other state, commonwealth or federal authorities or bodies. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the financial position and results of operations of the Company.

From time to time in the ordinary course of business, the Company (1) denies payments for service based on factors such as medical necessity and failure to meet preauthorization requirements and (2) determines payments for service based on contractual provisions. Certain providers have notified the Company that they disagree with its determinations and have threatened legal action. The Company has included in its medical cost liabilities a provision for the potential payments to these providers.

NOTES TO FINANCIAL STATEMENTS

Audits by CMS and the Commissioner of Insurance of the Commonwealth of Puerto Rico

Under the terms of the agreement with CMS, MMM Healthcare and PMC are subject to audit of compliance with federal regulations. During 2014, the Company was subject to (i) audits by the Office of the Commissioner of Insurance for years 2008 through 2012; (ii) CMS audits for years 2012 and 2011 and (iii) CMS is auditing the 2013 bid for PMC. The Company believes these audits will not have a material adverse effect on the Company's condensed consolidated financial statements. Future audits could result in claims against MMM Healthcare and PMC that could have a material adverse effect on the financial position and results of operations of the Company.
