Notes to Financial Statements

MCS Health Management Options, Inc. (the Company) is a wholly owned subsidiary of MCS Healthcare Holding, LLC (MCSHH) which is wholly owned by Medical Card System, Inc. (MCS).

The Company exclusively served medically indigent persons, as defined, under the Mi Salud Program (Mi Salud) through a contract with the Puerto Rico Health Insurance Administration (the Administration).

The Company elected not to renew its Mi Salud contract with the Administration and expired in 2011.

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements have been prepared in conformity with the NAIC Accounting Practices and Procedures Manual. The Commissioner of Insurance of Puerto Rico adopted the NAIC Accounting Practices and Procedures Manual as long as it does not contradict the provisions of the Insurance Code. The accounting practices used in preparing these financial statements did not result in differences for net income or capital and surplus under the NAIC Accounting Practices and Procedures Manual and practices permitted or prescribed by the Insurance Commissioner of Puerto Rico.

B. Use of Estimates

Management used estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these financial statements in conformity with the NAIC Accounting Practices and Procedures Manual. Actual results could differ from those estimates.

C. Accounting Policies

Premiums are recorded as revenue when due. Expenses incurred in connection to the acquisition of business, such as sales and broker commissions, are charged to operations as incurred. The Company carries its premium receivables net of allowances for doubtful amounts based on the evaluation of the aging and other factors that deserve recognition. Certain assets designated as "non-admitted assets" have been excluded from the statutory statements of admitted assets, liabilities and capital and surplus by a charge to surplus.

In addition, the company uses the following accounting policies:

- 1) Basis of valuation of short-term investments - Short-term investments include debt securities with maturities of one year or less at the time of purchase and are stated at amortized cost, which approximates fair value.
- 2) Basis of valuation of bonds - Debt securities are valued in accordance with rules promulgated by the NAIC. Debt securities eligible for amortization under such rules (classified 1 through 5 by the Securities and Valuation Office (SVO) of the NAIC) are stated at amortized cost net of

Notes to Financial Statements

unamortized premiums and/or discounts. Debt securities classified 6 by the SVO are stated at the lower of amortized cost or fair market value.

- 3) Basis of valuation of common stocks – Investments in common stocks are presented at estimated fair value. Unrealized gains or losses on investments in common stock are accounted as direct increases or decreases in surplus.
- 4) Basis of valuation of preferred stock - None.
- 5) The company has no mortgage loans or real state.
- 6) The Company applies the provisions of SAP No. 43, Loan-Backed and Structured Securities (SSAP No. 43), which requires insurers to separate other-than-temporary impairments between interest and noninterest-related declines in the value of all loan-backed and structured securities. Premiums and discounts are amortized or accreted over the life of the investment as an adjustment to yield using the effective-interest method. Interest and dividend income are recognized when earned. Realized gains or losses on the sale of investments are included in the statutory statements of operations and are determined on a specific-identifications basis.

Loan-Backed securities are stated at either amortized cost or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, that are valued using the prospective method.

- 7) The company does not have investments in subsidiaries or affiliated entities.
- 8) The company does not have investments in joint venture, partnership and limited liability entities.
- 9) The company does not invest in derivatives.
- 10) The company does not utilize anticipated investment income as a factor in the premium deficiency calculation.
- 11) Independent care providers such as hospitals, physicians, clinics, and others provide health services under contractual arrangements. Services rendered to insured members are billed and paid on a fee-for-service basis up to established limits based on eligible members. Also, there are contracts with various independent professional associations (IPAs) for certain medical care services to insured members. The IPAs are compensated based on capitation basis, and a portion of the capitation payments is retained to provide for incurred but not reported claims.

Claim payables represent accrued medical claims and related expenses (hospitalization and other outside medical services) for amounts billed and not paid and an estimate of cost incurred for unbilled services provided to the balance sheet date based on experience and accumulated statistical data on claims processed, incomplete and unreported. The liabilities are necessarily based on estimates and, while management believes that the amounts are adequate, the ultimate liability may be in excess of or less than the amounts provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed, and any adjustments are reflected in current operations.

- 12) The company has not modified its capitalization policy from the prior period.
- 13) The company estimate anticipated pharmacy rebates receivable using the analysis of historical recovery.

4. Discontinued Operations

The Company and the Administration could not agree on the new Per Member Per Month rates for each service region under the Mi Salud Program to be effective for the Program Fiscal Year commencing on July 1, 2011. As a result, MCS HMO provided notice of non-renewal which in effect constitutes a notice of termination of the contract with the Administration. MCS HMO was a contractor for the provision of physical health services under the MI Salud Program in six service regions of said Program pursuant to a contract entered into between MCS HMO and the Puerto Rico Health Insurance Administration ("ASES" for its Spanish acronym) (the "MI Salud Contract"). Effective July 1, 2011, ASES and MCS HMO entered into a Transition Plan Agreement (the "Transition Agreement") in order to proceed with the transition of the regions services by MCS HMO under the MI Salud Contract to a new physical health services provider designated by ASES.

The transition period commenced as of July 1, 2011 and ended on October 31, 2011. Since November 1, 2011, MCS HMO is not an insurer under the MI Salud Program has not transacted any new insurance business and has no insured. From November 1, 2011 to the present, MCS HMO's activities have been limited to processing provider claims as required under the MI Salud Contract for the services covered during the duration of the MI Salud Contract and the Transition Agreement.

5. Investments

- A. Mortgage Loans, including Mezzanine Real Estate Loans – Not applicable
- B. Debt Restructuring – None

20. Fair Value Measurements

- A. Inputs used for assets measured and reported at fair value
 - 1) Included in various investment-related line items in the statutory financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or, for certain bonds and preferred stock when carried at the lower of cost or market.

The fair value of an asset is the amount at which that asset could be bought or sold in a current transaction between willing parties, that is, other than in a forced or liquidation sale. The fair value of a liability is the amount at which that liability could be incurred or settled in a current transaction between willing parties, that is, other than in a forced or liquidation sale.

Fair values are based on quoted market prices when available. When market prices are not available, fair value is generally estimated using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms, and credit quality (matrix pricing). In instances where there is little or no market activity for the same or similar instruments, the Company estimates fair value using methods, models, and assumptions that management believes market participants would use to determine a current transaction price. These valuation techniques involve some level of management estimation and judgment, which becomes significant with increasingly complex instruments or pricing models. Where appropriate, adjustments are included to reflect the risk inherent in a particular methodology, model, or input used.

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by SSAP 100. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

Notes to Financial Statements

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table presents the fair value hierarchy level for the company's assets and liabilities that are measured at fair market value at December 31, 2019.

Management's Discussion and Analysis

MCS Health Management Options, Inc. (the Company) is a health maintenance organization operating under the provisions of the Insurance Code and Insurance Regulations of the Commonwealth of Puerto Rico. All of the Company's business activities are in the Commonwealth of Puerto Rico, which exposes the Company to geographical risk. The Company is wholly owned by Medical Card System, Inc.

At December 31, 2019, there were no subscribers given that the Company effectively terminated its contract on July 1, 2011 with the Puerto Rico Health Insurance Administrator (ASES). MCS HMO continued to process and pay, if appropriate, the adjustments claims submitted by providers.
