Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies

A. Accounting Practices, Impact of NAIC/State Differences

The accompanying financial statements of Point Guard Insurance Company, Inc. (Point Guard or the Company) have been prepared on the basis of accounting practices prescribed or permitted by the Commissioner of Insurance of the Commonwealth of Puerto Rico (the Commissioner of Insurance). The Commissioner of Insurance requires insurance companies domiciled in the Commonwealth of Puerto Rico to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Commissioner of Insurance.

The Commissioner has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. One such difference relates to the treatment of certain deferred tax items. The Commissioner prescribed the recognition of the deferred tax liability resulting from the contributions made over the years to the catastrophic reserve fund that would otherwise have resulted under NAIC SAP. The Company is not subject to this prescribed accounting practice as it is not required to maintain a catastrophic reserve.

Section 519 of the Puerto Rico Insurance code permits new domestic insurers during the first five natural years of its operations maintain unearned premiums reserves in the following proportion of otherwise required reserves: 1st year 50%, 2nd year 60%, 3rd year 70%, 4th year 80%, and 5th year 90%. Accordingly, Point Guard booked \$2,308,531 related to the section 519 adjustment for the year 2018. There were no unearned premiums reserves for 2019.

The effect of this item was to increase the policyholders' surplus on the PR basis reported in these financial statements below that which would have been reported on the NAIC SAP basis. This item had no effect on net income. A reconciliation of net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Commissioner of Insurance is shown below:

B. Use of Estimates

The preparation of statutory-basis financial statements in conformity with accounting practices prescribed or permitted by the Commissioner requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Significant items subject to those estimates include unpaid losses and loss adjustment expenses, valuation of investments, deferred tax assets and income tax uncertainties.

Notes to Financial Statements

C. Accounting Policies

Premiums are earned over the terms of the related insurance policies. Unearned premiums reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by proportional methods for direct business. Expenses paid as commission and policy fees from compulsory liability policies are charged to operating expenses as incurred.

In addition, the company uses the following accounting policies:

1. Short-term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
2. Bonds not backed by other loans and designated as highest quality or high quality (NAIC designations 1 or 2) are generally stated at amortized cost and any premium or discount is amortized or accreted to income using the effective-interest method. All other debt securities (NAIC designations 3 to 6) are reported at the lower of amortized cost or fair value.
3. Common stocks are reported at fair value under NAIC guidelines. The change in the fair value is recorded as a change in net unrealized capital gains (losses), a component of unassigned surplus.
4. Preferred stocks- are stated at cost, at the lower of cost or amortized cost, or at market values under NAIC guidelines, depending on the assigned credit rating and whether the preferred stock has mandatory sinking fund provisions-
5. Mortgage Loans - Not Applicable
6. Mortgage-backed Securities - Mortgage-backed securities are valued at amortized cost using the effective interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys or internal estimates and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities, except principal-only and interest-only securities which are valued using the prospective method.
7. Investments in subsidiaries, controlled or affiliated companies - Not Applicable
8. Ownership interests in joint ventures, partnerships or limited liability companies - Not Applicable
9. Derivatives - Not Applicable
10. The Company does not anticipate investment income when evaluating the need for premium deficiency reserves.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports. In addition, losses incurred but not reported include an amount based on experience. Such liabilities are based necessarily on assumptions and estimates though management believes the amount is adequate, the ultimate liability may be in excess or less than the amount provided. The methods for making such estimates and for establishing the resulting liability; are continually reviewed and any adjustments are reflected in the period determined.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

(2) No other-than-temporary impairment for loan-backed securities recorded during the year.

(3) No other-than-temporary impairment for loan-backed securities recorded during the year.

(4) Loan-backed and structured securities in unrealized loss positions as of year-end, stratified based on the length of time continuously in these unrealized positions, are as follows:

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$	58,665
	2. 12 Months or Longer	\$	121,617
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$	1,078,506
	2. 12 Months or Longer	\$	4,196,451

(5) All loan-backed and structured securities in an unrealized loss position, if any, were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detailed analysis of the underlying discounts. It is possible that the Company could recognize other-than-

Note 9 - Income Taxes

Insurance companies are taxed based on statutory income in Puerto Rico. In addition, income from operations is subject to an alternative minimum income tax that is calculated based on a formula established by existing tax laws. Income before income taxes differs from taxable income principally due to tax-exempt investment income.

Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes.

Notes to Financial Statements

In assessing the realizability of deferred tax assets, management considers whether it is more-likely-than-

not that, some portion or all of the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities (including the impact of available carryforward periods), projected future taxable income and tax planning strategies in making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, management believes it is more likely-than-not that the Company will realize the benefits of these deductible differences.

SSAP No. 101 allows companies to admit deferred tax assets up to the amount that they are expected to be realized within up to three years of balance sheet date and 10% or 15% of adjusted capital and surplus, if certain risk-based-capital ("RBC") ratio requirements are met. During 2019, the Company met the established RBC requirements that allowed it to admit those deferred tax assets that are expected to be realized within three years of the balance sheet date.

Note 14 – Liabilities, Contingencies and Assessments

A. Contingent Commitments

Pursuant to Chapter 25 of Puerto Rico Insurance Code, the Company is required to create a trust fund exclusively to pay catastrophe losses covered under property and other certain policies written in Puerto Rico. According to the business written by the Company, Point Guard is not required to maintain a catastrophic reserve.

Also, pursuant to Chapter 41 of the Puerto Rico Insurance Code and Rule No. 56 of the insurance regulations of the Commonwealth of Puerto Rico, property and liability insurance companies are members of the Sindicato de Aseguradores para la Suscripción Conjunta de Seguros de Responsabilidad de Profesional Médico-Hospitalaria "SIMED". This syndicate was created for the purpose of underwriting medical-hospital professional liability insurance. As a member, the Company shares risks with other member companies and, accordingly, is

Notes to Financial Statements

contingently liable in the event that this syndicate cannot meet its obligations. In 2018 "SIMED" declared and paid dividends amounting to \$1,081,929. No dividends were received for 2019.

Additional, pursuant to Article 12 of Rule LXIX of the Puerto Rico Insurance Code, Point Guard is a member of the Compulsory Vehicle Liability Insurance Joint Underwriting Association ("ASC") which was organized during 1977 to underwrite insurance coverage motor vehicles property damage liability risks effective January 1, 1988. As a member of ASC the Company shares the risk proportionally with other members based on a formula established by the Puerto Rico Insurance Code. During the years 2019 and 2018, the Company collected from the Association \$526,679 and \$10,139,456, respectively, of which \$9,401,623 was classified as extraordinary dividend. The ordinary portion of this dividend was recorded as part of the net other income in the accompanying statement of income. The extraordinary portion of the dividend collected in 2018 was recorded as part of the net other income in the statement of income.

B. Assessments

Property and Liability Insurance companies are also members of the Puerto Rico Property and Casualty Insurance Guaranty Association. Members are obligated to provide funds for the settlement of claims and reimbursement of unearned premiums of Insurance policies issued by insolvent insurance companies. No assessments have been imposed during 2019.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured and Reported at Fair Value

(1) Fair value Measurements at Reporting Date

The Company has categorized its assets and liabilities that are reported on the balance sheet at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined.

The three levels are defined as follows:

Level 1-This category of asset and liabilities would include for example equity securities that are traded in an active exchange market, as well as certain U.S. Treasury and other U.S. government agency securities that are traded by dealers or brokers in active markets.

Level 2 — Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Level 2 assets and liabilities would include for example (i) mortgage-backed securities for which the fair value is estimated based on valuations obtained from third party pricing services for identical or comparable assets, (ii) debt securities with quoted prices that are traded less frequently than exchange-traded instruments and (iii) derivative contracts and financial liabilities.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. Level 3 assets and liabilities would include for example financial instruments whose value is determined using pricing models, for which the determination of fair value requires significant management judgment or estimation.

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have change that would cause an instrument to be transferred between Levels 1 and 2. This policy applies to transfers into or out of Level 3.

(2) Fair Value Measurements in Level 3 of the Fair Value Hierarchy

The Company has no assets or liabilities measured at fair value in the Level 3 category so this item does not apply.

(3) Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. During the current year, no transfers into or out of Level 3 were required.

(4) Inputs and Techniques Used for Level 2 and Level 3 Fair Values

Bonds, Unaffiliated Common Stock, and Preferred Stock - The fair value of investment securities available for sale is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as discounted cash flow methodologies, adjusted for the security's credit rating, prepayment assumptions, and other factors such as credit loss assumptions.

Common stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because quoted markets prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted markets prices for identical instruments was determined by the Company to be the most reliable method to determine fair value.

The Company has no assets or liabilities measured at fair value in the Level 3 category.

Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses

Current year changes in estimates of the cost of prior year losses and loss adjustment expenses (LAE) affect the current year Statement of Income. Increases in those estimates rises current year expense and are referred to as unfavorable development of prior year reserve shortages. Decreases in those estimates lower current year expense and as referred to as favorable development on prior year reserve redundancies. Current year losses and LAE reflected on the Statement of Income of \$40,553,321 were greater by \$1,072,555 due a decrease in the favorable development of prior year estimates. This favorable development was approximately 1.5 % of the prior year reserves for unpaid losses and LAE reflected on the Balance Sheet of \$6,298,813.
