Note 1 - Organization and summary of significant accounting policies

Organization

Through corporate resolution adopted by the Board of Directors of Mennonite General Hospital, Inc., it was authorized the transfer of the net tangible and intangible assets of what until June 30, 2013 was a division of the Mennonite General Hospital, Inc. (Mennonite General Hospital Health Plan - a Division of Mennonite General Hospital, Inc.), into a new entity incorporated and existing since December 2, 2002, Plan de salud del Hospital Menonita, Inc., which underwent change of corporate name to Plan de salud Menonita, Inc. (the Plan) on May 2, 2013, and is what currently exists and operates as a health maintenance organization (HMO). It provides comprehensive health care services to subscribers on a prepaid basis principally through Mennonite General Hospital, Inc., its sole Member, with hospital facilities at Aibonito, Cayey and Caguas (the Hospital), but also through contractual arrangements with other health care providers. The Plan is authorized by the Office of the Commissioner of Insurance of Puerto Rico.

Summary of significant accounting policies

Basis of presentation

The accompanying statutory-basis financial statements have been prepared in conformity with accounting practices prescribed or permitted by the Office of the Commissioner of Insurance of the Commonwealth of Puerto Rico (the Commissioner), which vary in some respects from accounting principles generally accepted in the United States of America. The most significant of these differences are as follows: (a) certain assets designated as "non-admitted assets" (principally premiums receivable over 90 days old, certain prepaid assets, advances to employees, and furniture and equipment) have been charged to unrestricted net assets.

The Commissioner's prescribed accounting practices include a variety of publications of the National Association of Insurance Commissioners (NAIC), as well as state laws, regulations and general administrative rules.

Use of estimates

The preparation of the statutory-basis financial statements requires management to make estimates and assumptions that affect the reported amounts in the statutory-based financial statements and the accompanying notes, often because the Plan must make estimates about the effects of matters that are inherently uncertain and will change in subsequent periods as more information becomes available. The impact of any changes in estimates is included in the determination of changes in unrestricted net assets in the period in which the estimate is adjusted.

Fair value measurements

Financial instruments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Market or observable inputs are the preferred source of value, followed by assumptions based on hypothetical transactions in the absence of market input.

The valuation techniques are based upon observable or unobservable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Plan's market assumptions.

These three types of inputs create the following fair value hierarchy:

- o Level 1 - Quoted prices for identical instruments in active markets
- o Level 2 - Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable.
- o Level 3 - significant inputs to the valuation model are unobservable.

Investments included in state guarantee fund deposit

Bonds and stocks are valued in accordance with rules promulgated by NAIC ssAP. Bonds eligible for amortization under such rules are stated at amortized cost. Premiums and discount are amortized using the interest method. Net realized gains and losses on the sale of bonds, if any, are determined using the specific-identification method and are accounted for as other revenues.

Cash equivalents

For purposes of the statement of cash flows, the Plan considers all cash in bank accounts and money market account as cash and cash equivalents.

Non-admitted assets

Certain assets designated as "non-admitted assets" have been excluded from the statutory-basis statements of admitted assets, liabilities and unrestricted net assets through a charge to unrestricted net assets. Non-admitted assets as of December 31, 2016 included prepaid insurance, prepaid expenses, non-admitted property and equipment, and accounts receivable over 90 days.

Premiums revenue

Membership contracts are on a yearly basis subject to cancellation by the employer group, the individual or the Plan, typically upon thirty days advances written notice. Premiums are due monthly and are recognized as revenue during the period in which the Plan is obligated to provide services to subscribers.

Revenues consist of net premium income that is recognized in the period in which subscribers are entitled to receive health care services. Premiums received in full during the current period which is not due until future periods are recorded as premiums received in advance in the accompanying statutory-basis financial statements.

The Plan reports uncollected premium balances from its insured members as uncollected premium balances on the statutory-basis financial statements. Uncollected premium balances that are over 90 days past due are considered non-admitted assets.

Health care service cost recognition

The Plan contracts with various health care providers for the provision of certain medical care services to its subscribers. The Plan compensates providers of services, mainly, by a prospectively determined per diem rate. Hospital and medical expenses and corresponding liabilities include claims paid, claims processed but not yet paid, estimates for claims received but not yet processed, estimates for the costs of health care services subscribers have received but for which claims have not yet been submitted, and for liabilities for physician, hospital, and other medical costs disputes. The cost of other health care services provided or contracted for is accrued in the period in which it is provided to a subscriber based in part on estimates, including an accrual for medical services for which no bill has yet been received (incurred but not yet reported). The estimates for such medical services are based primarily on past experience together with current factors, and are adjusted, if necessary, as experience develops or new information becomes available. Adjustments to claims unpaid, estimates and aggregate health reserves are reflected in operating results in the period in which the change in estimate is identified. Although considerable variability is inherent in such estimates, management believes these reserves are adequate to cover the Plan's liability for unpaid claims and aggregate health reserves as of December 31, 2016.

Income taxes

FASB ASC 740-10-30 clarifies the accounting for uncertainty in income taxes recognized in an entity's financial statements in accordance with FASB ASC 740-10-25. This accounting standard prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As of December 31, 2016, the Plan concluded that there are no uncertain tax positions as such term is defined in this provision, as it related to the Plan. See note 8.

Note 2 - State guarantee fund deposit

The Plan is required, by Article 19.410 of the Insurance Code of the Commonwealth of Puerto Rico, to maintain minimum deposit in escrow with the Commissioner, which had a market value that fell below the required amount of \$600,000 at December 31, 2016. The Plan's unrestricted net assets and contributions cannot be lower than said amount at any reporting date.

The Plan is not in compliance with this requirement as of December 31, 2016 due to significant market value decline. This restricted cash reserve consists principally of Puerto Rico government obligations and are stated at amortized cost. This reserve is presented as State Guarantee Fund Deposit in the accompanying statutory basis - statements of admitted assets, liabilities and unrestricted net assets. Interest earned on this reserve accrues to the Plan.

The composition of the state guarantee fund deposit at December 31, 2016 consists of the following:

Level 1:
Carrying

Value

Market

Value

PR Employee Retirement system Govt	\$505,000	\$187,058
PR Commonwealth for Issues DTD	125,000	47,025
	\$630,000	\$234,083

Investments income and loss consist of the following for the six months period ended December 31, 2016:

Investment income (loss):

Interest and dividend income \$ 35,722

Other-than-temporary increase in value of investments 46,016

Management periodically evaluates portfolio investments with unrealized losses in order to determine whether such losses should be considered other-than-temporary in accordance with NAIC SSAP. In the case of fixed income securities, the following is considered:

- o The issuer's historical credit rating.
- o Changes in the open market interest rates.
- o Historical of interest payments for each security.
- o Historical evaluation of its market value
- o The financial condition and prospects of the issuer, including any specific events that may influence the operations of the issuer
- o Historical evaluation of its market value.
- o A significant deterioration in the earnings performance, asset quality, or business prospects of the issuer
- o A significant adverse change in the regulatory, economic, or technological environment of the issuer
- o A significant adverse change in the general market condition of either the geographic area or the industry in which the issuer operates. Factors that raise significant concerns about the issuer's ability to continue as an ongoing concern, such as negative cash flows from operations, working capital deficiencies, or noncompliance with statutory capital requirements or debt covenants, as applicable.
- o The Plan Management's ability and intention to hold the investment for a reasonable time until it recovers a reasonable amount of its cost.

Note 3 - Related parties transactions

Plan de salud Menonita, Inc. serves as a third party administrator of the Health Plan program (AsO) for the employees of Mennonite General Hospital, Inc.

Note 4 - Pension plan

The Hospital sponsors a qualified contributory defined benefit pension plan, which covers

substantially all of its employees, including the Plan's employees. Information relating to the Plan's pension cost, projected benefit obligation and assets is not available per division. The Hospital does not charge pension cost to the Plan during the six months period ended December 31, 2016.

Note 5 - Health Insurance Portability and Accountability Act

The Health Insurance Portability and Accountability Act (HIPAA) was enacted in August 1996 to assure health insurance portability, reduce healthcare fraud and abuse, guarantee security and privacy of health information and enforce standards for health information. It also places requirements on health maintenance organizations. Organizations are subject to significant fines and penalties if found not to be in compliance with the provisions outlined in the regulations. The Plan's management believes to be in compliance pursuant to HIPAA requirements.

Note 6 - Concentrations of credit risk

Concentrations of credit risk and financial instruments

Financial instruments that may potentially subject the Plan to concentrations of credit risk consist principally of cash and cash equivalents, accounts receivable and state guaranty fund deposit.

Cash and cash equivalents

At December 31, 2016, the Plan has bank balances, which not exceeded Federal Deposit Insurance Corporation limits. This financial institution has strong credit ratings and the Plan's management believes that credit risk related to these deposits is minimal.

Investments

As of December 31, 2016, the Plan has placed most of its investments in some instruments for which market value determination may involve estimates that could be significantly impacted by the current economic conditions. Other issues to consider include other than temporary impairment issues including estimates of the timing and amount of cash flows and the extent of deterioration in the issuer's creditworthiness, even though the Plan may have the ability to hold securities to recover.

Accounts receivable

substantially all of the Plan's business activity and premiums receivable are derived from subscribers located in the central region of Puerto Rico and, as such, the Plan is subject to the risks of the Puerto Rico region's economy. The Plan does not require collateral to guarantee its premiums receivable.

The mix of premiums receivable from subscribers at December 31, 2016 is as follows:

2015

Government group
53% Other groups
36% Cooperatives
11%

100%

Note 7 - Risk and uncertainties

Dependency

When needed, the Hospital supports the Plan on any short-term operating capital and administrative needs.

Legal proceedings

Because of the nature of the business, the Plan is routinely made party to a variety of legal actions related to the design and management of its service offerings. The Plan records liabilities for estimates of probable costs resulting from these matters where appropriate. These matters include, but are not limited to, claims relating to health care benefits coverage, medical malpractice actions, contract disputes, and claims related to certain other business practices.

Although the outcomes of any such legal actions cannot be predicted, in the opinion of management, the resolution of any currently pending or threatened actions will not have a material adverse effect on the accompanying statutory-basis financial statements of the Plan.

Deficiency reserve

Under certain contracts, a deficiency reserve shall be established when the expected claim payments or incurred costs, claim adjustment expenses and administration costs might exceed the

premiums to be collected for the remaining period of the contract. Determination of said amounts can be difficult and subject to consideration of variable factors surrounding the assumptions used to determine the liability due to uncertainties inherent in the estimation and assumption process. It is reasonably possible that changes in the estimates and assumptions could be material to the statutory-based financial statements.

Audits from regulatory agencies

The Plan's business is regulated at the state levels. The laws and rules governing the Plan's business and interpretations of those laws and rules are subject to frequent change. Broad latitude is given to the agencies administering those regulations. Further, the Plan must obtain and maintain regulatory approvals to market and sell many of its products.

The Plan has been, and is currently involved, in routine audits and reviews by the Office of the Puerto Rico Insurance Commissioner, and other governmental authorities. These audits and reviews can result in assessment of fines or penalties, or other sanctions, including loss of the

certificate of authority or exclusion from participation in government programs. The management of the Plan is not aware of any assessments, potential or accrued, that could have a material financial effect on the operations of the Plan, that should be recorded or disclosed in the statutory-basis financial statements as of and for the year ended December 31, 2016.

Note 8 - Income taxes

The Plan's request for tax exemption on income, property, municipal and excise taxes under section 1101.01 of the Code was not granted by the Puerto Rico Treasury Department through resolution dated September 19, 2011. As a taxable entity, the Plan is subject to income tax at tax rates from

20% to 39%. The Plan's policy for interests and penalties related to income tax exposures is to recognize interests and penalties as a component of the provision for income taxes in the statutory-basis statements of revenues, expenses and changes in unrestricted net assets. As of December 31, 2016, management believes that there are no uncertain tax positions due to carryforward losses amounting approximately to \$93,000 and thus, has no accrued income tax commitment, related interests or penalties in the accompanying statutory-basis balance sheet. The deferred tax asset that arises from the accumulated carryforward losses amounts to approximately \$0 as of December 31, 2016, and has been fully reduced due to the uncertainty of its realization.

Note 9 - (RBC)

In March 30, 2017, the Hospital made a capital contributions on behalf of the Plan, amounting to \$1,500,000 in, order to comply with the minimum requirement regarding risk based capital established by the office of the Commissioner of Insurance of the Commonwealth of Puerto Rico and NAIC.
